

Town of Canaan

New Hampshire

OFFICIAL REPORTS

1955

TOWN and SCHOOL DISTRICT

Help Canaan!

Prevent All Unwanted Fires!

- 1 - Get a fire permit from your local Forest Fire Warden before starting a fire out of doors.
- 2 - Make certain your fire is dead out before leaving the area.
- 3 - Make plans to control a fire should one get out of control at your home.
- 4 - In case of fire Dial LA 3-4571.

Town Warrant

L. S. THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Canaan, County of Grafton, in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town House, in said Town, on the second Tuesday of March, next, (March 13, 1956) at ten of the clock in the forenoon, to act upon the following subjects:

Polls open at 10 A.M. and close at 6 P.M. Articles in Warrant will be taken up beginning at 1 P.M.

ARTICLE ONE: To choose by ballot and plurality vote: A town clerk, one selectman for one year, one selectman for three years, a town treasurer; a tax collector, a chief of police, overseer of the poor, one library trustee for three years, one trustee of trust funds for three years, and such other town officers as the town may judge necessary to be chosen by ballot or other legal means.

ARTICLE TWO: To see if the Town will authorize the Selectmen to hire money in anticipation of tax revenues.

ARTICLE THREE: To see if the Town will vote to raise such sums of money as may be necessary to defray Town charges for the year ensuing, and make appropriations of the same by approval of the Town budget as submitted by the budget committee.

ARTICLE FOUR: To see if the Town will vote to adopt a plan for extending to employees of the Town the benefits of Title 2 of the Federal Social Security Act (Old Age and Survivor's Insurance) as authorized by chapter 101 of the Revised Statutes Annotated Amended by chapters 301 and 332 of the laws of 1955,

and to raise and appropriate the sum of \$200.00 to defray the Town's share of the cost thereof.

ARTICLE FIVE: To see if the Town wishes to exclude from the plan services in any class or classes of positions filled by popular election.

ARTICLE SIX: To see if the Town wishes to exclude from the plan services in any class or classes of positions the compensation for which is on a fee basis.

ARTICLE SEVEN: If a plan for Social Security coverage is adopted, to see if the Town will authorize the Selectmen to execute on behalf of the Town the necessary agreement with the State of New Hampshire to carry into effect the plan and to see if the Town will designate the Town Treasurer as the officer to be responsible for the administration of the plan.

ARTICLE EIGHT: To see if the Town will vote to install street lights in the following locations:

1. In front of the home of Everett Simmons, formerly the Sherman Pike House.
2. At the corner where the Orange road meets the Dorchester road. This spot especially needs a strong light during the Fair week when pedestrians grope their way in the dark and have to dodge cars. A driver cannot see a person on foot against the lights of an oncoming car.
3. On the South Road between the homes of Hammond Currier and Martin Pierce. A light there would serve several families and help locate the junction of two side roads.

ARTICLE NINE: To see if the Town will vote to abolish the present system of having the Town Road Agent appointed by the board of Selectmen and adopt the system of election by ballot and plurality vote, as is now used in the election of all other Town Officers.

- A. It is respectfully requested that action be taken on this article by paper ballot.

ARTICLE TEN: To see if the Town will vote to discontinue and make subject to Gates and Bars a section of the Upper Gore Road, so called, starting at a point where the Dorchester Road and Gore Road meet and continuing to the Gore Farm buildings.

ARTICLE ELEVEN: To see if the Town will vote to accept a section of the Clark Pond Road, so called, leading to the Gore, starting at a point where the said Gore Road leaves the Clark Pond Road at the foot of Clark Pond and continuing over a distance of about 1/5 of a mile to a place known as the "Landing" and marked by a red iron pin.

ARTICLE TWELVE: To see if the Town will vote to authorize the Selectmen to continue the present policy of joint financial cooperation with the State of New Hampshire in the construction of bridges, and to authorize the Selectmen to hire necessary funds to provide the Town's share in any construction work authorized and undertaken in the year ensuing.

ARTICLE THIRTEEN: To hear the reports of agents, auditors, committees or other officers heretofore chosen and pass any vote relating thereto, and to transact any other business that may legally come before this meeting.

Given under our hands and seal this twenty third day of February, nineteen hundred and fifty six.

JAMES Q. RICARD
JOSEPH L. GRAHAM
STANLEY C. BOGARDUS
Selectmen of Canaan

Report of School District Treasurer

For Fiscal Year July 1, 1954, to June 30, 1955.

Summary:

Cash on Hand July 1, 1954	\$12.63
---------------------------	---------

Received from Selectmen, Current Appropriation	\$46,401.59
plus \$10,000 loan to Town	\$56,401.59

Received from the State Treasurer, State Aid	\$10,966.96
--	-------------

Received from State Treasurer, school lunch	1,040.67
---	----------

Received from Tuitions	4,946.34
------------------------	----------

Received from Trust Funds	59.92
---------------------------	-------

Received from All Other Sources	12.60
---------------------------------	-------

Total Receipts	73,428.08
----------------	-----------

Total Amount Available for Fiscal Year	\$73,440.71
--	-------------

Less School Board Orders Paid	73,436.02
-------------------------------	-----------

Balance on Hand June 30, 1955	\$ 4.69
-------------------------------	---------

RUTH G. HICKS,

District Treasurer

Auditors' Certificate

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Canaan of which the above is a true summary for the fiscal year ending June 30, 1955 and find them correct in all respects.

School Calendar

1956-57

Open Sept. 5 (Wed.)	Close, Dec. 21 (Fri.)
Open Jan. 2	Close Feb. 15
Open Feb. 25	Close Apr. 19
Open April 29	Close June 12

Days out: Nov. 22, 23; May 30, 31.

Close at 12:30 Nov. 21, Dec. 21.

Total number of days required by State Board is 180 including 3 for institutes and conventions and up to 5 for workshops.

Pupils must attend school if 6 by September 30 and may enter if 6 by January 1.

Vaccination is required by state law unless child has written excuse from doctor.

Superintendent's Report 1955-56

We wish again to emphasize the most serious shortage of teachers who are qualified through either training or successful experience, or both, and to quote material based on a study financed by the Ford Foundation for the Advancement of Education and written by Mr. Beardsley Ruml and Sidney G. Tickton, noted business men. The demand for teachers is great and will increase for years to come because: (1) The total number of births during the depression years was relatively very small (the present college age group); (2) 1954 produced the biggest crop of babies yet with over 4 million being born in comparison with less than 3 million in 1944; (3) In the next 10 years we will need to recruit **three** new teachers for every **two** now employed; (4) It would take half of all college graduates for each of the next 10 years to meet this demand; (5) We have now 9,200,000 pupils in the 14-17 age level but in 1965 there will be 14,200,000! The above constitute basic facts, the foundation of serious troubles, and can not be changed. These in themselves create a tremendous shortage of teachers, making a very restricted economic supply of a scarce commodity and resulting in an increasing market value of the same, higher salaries. Added to this shortage and increased demand due to increased number of pupils we have a rising salary level in the field of industries as shown below:

Average Wages 1953

Workers auto manufacturing	\$4,947
Coal mining	4,198
Electrical Machinery	3,956
Telephone operators N. Y. Tel. Co.	3,224
Teachers big city high schools	5,526
Teachers small city high schools	4,292
Teachers small city elementary schools	3,682
Teachers small town elementary schools	3,190

From this it can be seen that there is little incentive for a pupil to spend four years, or more, of his life, and a considerable capital investment in a vocation paying less than jobs in industry which pay as you learn. Earning over \$10,000 per year were 41% of the physicians and surgeons, 28% of the lawyers and judges, and 24.6% of the dentists, and .95% of the teachers.

Why does anyone enter the teaching profession today? What are these basic figures going to do to every salary paid any teacher in the years to come? No amount of unfavorable publicity or unkind belittling thinking can change the demand for teachers caused by children already born and who will be educated during the next 20 years.

Much is being written about the poor quality of education of today and most of it implies great superiority of past educational systems. How did we get into such dire circumstances, if we are in them, when the situations of today are the results of a supposedly superior educational systems of previous generations? Certain it is that those now in school and yet to go to school can not be blamed for circumstances due to their parents and grandparents. We are trying to blame the newly born for errors of our own, and past generations, which errors actually may not be very great anyway. Somehow or another the people of the United States past and present, (and future, I'm sure) have given an account of themselves unmatched, and universally envied. We might ask, "How good can we get?" The answer is, of course, "Better." That's the premise we work with, and always will, but to do so and keep some small degree of sanity requires a judicious omission of much that is being popularized at the moment. For instance, reading is taking a "panning" at the moment (it was history a few years ago and it will be either math or spelling in a year or so.) Most of what is being writ-

ten assumes that we know nothing about two things: (1) How to teach reading; (2) What results we are now getting.

Let's look briefly at results of nationally standardized tests given every year in Union No. 4. To avoid exact identification we will assume the grades taken to be fictitious although the figures used are basically correct. Twenty four out of 35 in grade 6 scored above grade level in reading last April with the highest level above grade 10; 12 were at the 8th grade level or higher. In grade 5 fifteen out of 30 were above grade with 8 above grade 7. More of the same could be quoted based on recorded facts but let's reverse the figures and say that 15 out of 30 were below grade level, which is true. Popularly these are the ones that get into print! But let's go one step further and say that the abilities of the pupils in this grade vary from border line feeble-mindedness to high superiority but none near the genius level. We are speaking here of those abilities necessary to acquire a high degree of reading ability or academic achievement. We are not considering mechanical, social, artistic, musical, or any number of other abilities. In summary we can say that our results are as anyone acquainted with human beings knows deep down in his heart and secretly admits to his conscience: an average grade will test average in accomplishment with bright pupils achieving brilliantly and dull ones doing below a standardized level with exceptions both ways occasionally thrown in for good measure; a mathematical average, whether of business profits or grade achievements, is composed of all elements both good and bad. Schools have one great handicap from the viewpoint of achieving only top quality results; We can not give the "pink slip" to those not improving our product! We might add here, in view of some recent publicity nationally, that it takes a mighty smart youngster with exceptional ability in mathematics to become an engineer; just re-

quiring all pupils to take four years of high school math is not going to automatically produce atomic scientists but will produce an amazingly large number of flunks in high school!

Some few years ago the "better" schools were de-emphasizing marks to such an extent that those of us who were still "old-fashioned" enough to cling to them were just not accepted as being quite normal! A recent article has been written stating that marks are very much in style, are perhaps being stressed too much not because of not being in step with modern trends but because so many scholarships are being offered putting a very high premium on marks and slighting those which may have other abilities equally important, or more so, than those necessary to achieve good grades. And so the educational pendulum swings in another arc! Past performance is still one of the best indexes we have to predict future success.

The last legislature increased state aid to needy school districts from \$900,000 to \$1,200,000 which when read one way is a 33% increase but when looked at from another angle is a mere \$300,000, hardly enough to build a high school for 150 pupils. When the tough educational problems facing us, and some are in Union 4, are carefully analyzed this is a very small amount of money when compared with what some of us believe will be eventually necessary to even partially meet our educational needs. Canaan received \$19,400 of state aid; Danbury \$8,143; Alexandria and Orange some few dollars over \$1,000. The first two are significant amounts but are small when compared with present and future needs (particularly the latter). Even towns not receiving aid at present, and who may never under a formula based on need as measured at present, may well require significant amounts of aid to meet future needs including salary spirals. The local real estate tax should not be expected to meet all of these costs and the state with its

different sources of tax money will be required to help more and more or the federal government will be **forced** into educational fields because of its biggest source of revenues, the individual income tax of which New England contributes a share far in excess of its population. We are now paying for federal projects benefiting other sections of the country and should not be too squeamish about getting more of it back here, at least for capital improvements for schools, flood control and like projects. We believe in local control of education, the least amount of state control, and no federal control, if possible, but, at present, we can not foresee the local unit being able to increase its contribution indefinitely, foresee the state as being reluctant to be financially realistic in its educational obligations, and only a hodgepodge of ideas at the national level. A state building aid bill was passed providing aid beginning with the school year of 1956-57 **provided funds become available**. This would pay up to 20% of outstanding debt for a current year of buildings approved by the Department of Education. It seems unwise to plan on receiving much from this source because it is too indefinite. This bill marks a step up in the right direction and we have hopes of its increasing in future years. Educational costs are bound to increase very materially in the years to come due to the pressure of more children, if for no other cause.

Teachers' Salaries. In spite of the \$300 raise voted at your last district meeting the salary of \$2700 is a very low figure when compared with other public schools even in New Hampshire. From the N.H. Taxpayer of October we take the figure of \$3435 as the average salary being paid for the current year. Even a casual check with salaries in Enfield, Lebanon, Hanover Bristol and similar neighboring towns will show them paying considerably more than Canaan. Most salary schedules will begin at \$3,000 or more, and it is noted that Hanover, with an already good schedule, through its school

board, has approved an increase of \$440 per teacher for next year, and a minimum of \$3200. With Canaan receiving about 28% of its school budget from state funds it seems more reasonable to expect that some of this should go to put the salaries in Canaan on a level more nearly approximating those of neighboring towns. While we are competing for state funds it should not be forgotten that we are competing for teachers as well.

Canaan's **maximum** borrowing power as of February 1956 is \$54,596.00 and this only with the approval of a special board of investigation. The Meredith-Center Harbor Cooperative High School had plans of spending \$210,000 for a gymnasium! Per room costs in N. H. are now averaging \$22,000. It is obvious from these figures that no extensive building is, or will be, possible in the foreseeable future. Assuming the ability to build a new high school it is doubtful in my mind if Canaan could then pay salaries sufficient to properly staff a school with modern offerings. Bristol has an operating budget this year of \$113,000, takes in about \$25,000 in high and elementary tuitions, has an elementary enrollment of about 210 and high school of 145 versus Canaan's 274 and 66. If the present pupils now in school go through high school Canaan's top enrollment in high school in 1963-64 would be 158. It is also interesting to note that 63% of Bristol's tax assessment goes to its schools, and 54.5 of Canaan's. Taking into consideration a continuing spiral of inflation it is not at all fanciful to predict a budget for Canaan's Schools well over \$115,000 at the end of a 10 year period! How such a budget could be paid for is literally the \$64,000 question! The pupils in Canaan and surrounding country are still part of the state of New Hampshire and are entitled to as fine educational opportunities as those living in Lebanon, Hanover, Concord, Meredith or any other place. Perhaps there are vast sources of tax money at the local levels but we have not been able to find any as yet!

On November 14, 1955 Commissioner of Education, Austin J. McCaffrey accompanied by Roland B. Kimball, Director, Secondary School Services, and Paul E. Farnum, Chief, Division of Administration, visited the Canaan Schools for the purpose of making a report to the school board relative to the educational program and facilities offered in this district. This report has now been received and should be given very serious study beginning at once and continuing as long as necessary to achieve solutions to the present and future needs of our pupils. Although the report is not exhaustive, nor intended to be, it does offer several possible solutions requiring much additional study by all of us. Individual decisions quickly reached are of little value except as a basis of promoting discussions. The only conclusion I would care to make at this time is to say that any and all solutions are, and will be, costly when compared with our present programs. It is my suggestion that organized attempts be made at once to give these problems wide and comprehensive study.

Respectfully submitted,

C. MAURICE GRAY, Supt.

Warrant for School Meeting

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Canaan qualified to vote in district affairs:

You are hereby notified to meet at the Elementary School in said district on the 9th day of March, 1956, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To see if the school district will vote to adopt a plan for extending to employees of the district the benefits of title II of the Federal Social Security Act (Old Age and Survivor's Insurance) as authorized by Chapter 101 of the Revised Statutes Annotated Amended

by Chapters 201 and 332 of the Laws of 1955 and to raise and appropriate the sum of \$70.00 to defray the district's share of the cost thereof.

10. To see if the school district wishes to exclude from the plan services in any class or classes of positions filled by popular election.

11. To see if the school district wishes to exclude from the plan services in any class or classes of positions the compensation for which is on a fee basis.

12. If a plan for Social Security Coverage is adopted, to see if the school district will authorize the School Board to execute on behalf of the District the necessary agreement with the State of New Hampshire to carry into effect the plan and to see if the town will designate the school district treasurer as the officer to be responsible for the administration of the plan.

13. To see if the school district will vote to adopt the non partisan ballot system for its elected school officials.

14. To see if the District will vote to authorize the School Board to use any receipts under-estimated in the budget for 1956-1957 to pay liabilities under-estimated in the 1956-1957 budget.

15. To see if the District will authorize the appointment of a Committee to serve with the School Board in a study of the High School needs of the district and to report to an adjourned District meeting in September, 1956.

16. To transact any other business which may legally come before said meeting.

Given under our hands at said Canaan this 25st day of February 1956.

JOSEPH C. CHANDLER
ESTHER E. WATSON
ALFRED D. NEILY, JR.
